## 4.1 Description of first aid measures

General advice	:	If on clothes, remove clothes. Move the victim to fresh air. Show this safety data sheet to the doctor in attendance. Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.
If inhaled	:	Remove person to fresh air. If signs/symptoms continue, get medical attention. In case of unconsciousness bring patient into stable side position for transport.
In case of skin contact	:	Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. If skin irritation persists, call a physician.
In case of eye contact	:	Flush eyes with water at least 15 minutes. Get medical atten- tion if eye irritation develops or persists.
If swallowed	:	If accidentally swallowed obtain immediate medical attention. Rinse mouth with water. If conscious, drink plenty of water. Do NOT induce vomiting.

## 7.1 Precautions for safe handling

Advice on safe handling	<ul> <li>Avoid formation of dust and aerosols.</li> <li>Use only with adequate ventilation.</li> <li>Take note of emission threshold.</li> <li>Use solvent-proof equipment.</li> <li>Ensure that suitable extractors are available on processing machines.</li> <li>Handle with care.</li> <li>Keep eye wash bottle available on working place.</li> <li>Avoid release to the environment.</li> <li>Keep away from children.</li> </ul>
Advice on protection against fire and explosion	Keep product and empty container away from heat and sources of ignition. Do not smoke. Take measures to prevent the build up of electrostatic charge. May form explosive mix- tures in air. Highly volatile, flammable constituents are re- leased during processing. In the event of fire and/or explosion do not breathe fumes. Keep breathing equipment ready. Have fire extinguishing equipment ready in case of nearby fire.
